[17 UN Sustainable Development Goals](#)

THE SUSTAINABLE DEVELOPMENT GOALS

Project Requirements

In teams of 1-5 people – build from scratch.

No past projects or reused code.

AI tools are allowed!

Start and Submission

Hacking starts after the Opening Ceremony on Saturday at 5:00 PM and ends Sunday at 5:00 PM – 24 hours total.

Within Hacking Period

Projects found to be modified outside the official hacking period will be disqualified.

Public GitHub Repo

A link to your full project code in a public repository will be required.

Devpost Entry

Submit your full project, description, and deployment links on the Devpost before the deadline on Sunday 5:00 PM.

No submissions after 5 PM will be accepted.

Important Rules

- ⚠️ **No pre-written code!** Hacking begins on Saturday 22nd 5:00 PM.
- 💻 Public GitHub repository required for submission.
- 🗣 Demo — judges will review demos and Devpost submissions.

Prizes

-  **General Track (1st, 2nd, 3rd place)**
-  **Best Use of Google Gemini API**
-  **Best UI/UX Design Track**
-  **Best Use of Google Cloud**
-  **People's Choice Award**
-  **Hidden Track**

General Track (1st, 2nd, 3rd place)

Prizes

★ First Place

1 winner

Each Member receives:

- 250 CAD Gift Card for each member
- Coffee Chat with Dayforce Hiring Manager (each member)
- Recognition on Sheridan Datathon Social Media Platforms

★ Second Place

1 winner

Each Member receives:

- 150 CAD Gift Card for each member
- Recognition on Sheridan Datathon Social Media Platforms

★ Third place

1 winner

Each Member receives:

- 100 CAD Gift Card for each member
- Recognition on Sheridan Datathon Social Media Platforms

Prizes

★ Best Use Of Gemini API

1 winner

This track celebrates the most innovative and impactful use of Google's Gemini API. Teams will be judged on how creatively and effectively they integrate Gemini's multimodal capabilities to elevate their project's functionality and user experience.

Each member receives:

- 60 CAD Gift Card
- Recognition on Sheridan Datathon Social Media Platforms

Best UI/UX Design Track

Prizes

★ Best UI / UX Design

1 winner

This is for our hackers who love design. Just because our main track isn't judging looks doesn't mean they should go unnoticed!

Each member receives:

- 60 CAD Gift Card
- Recognition on Sheridan Datathon Social Media Platforms

Prizes

★ Best Use of Google Cloud

1 winner

This track recognizes the team that makes the most powerful and effective use of Google Cloud technologies. Whether through BigQuery, Vertex AI, Cloud Functions, or scalable data pipelines, etc, judges will be looking for solutions that leverage cloud services to boost performance, reliability, and real-world impact.

Each member receives:

- 60 CAD Gift Card
- Recognition on Sheridan Datathon Social Media Platforms

People's Choice Award

Prizes

★ People's Choice Award

1 winner

This award is decided entirely by a majority vote! After the demo period ends, everybody will have the chance to vote for their favourite project on Devpost. Whether it's brilliant design, an inspiring mission, or an unforgettable demo, the project with the most community votes will take home the People's Choice Award!

Each member receives:

- 30 CAD Gift Card
- Recognition on Sheridan Datathon Social Media Platforms

? Hidden Track

Prizes

★ Hidden Track

1 winner

TBA in the Closing Ceremony!

Judging Criteria

Judges will view Devpost submissions and live demos! Details are posted in the Hacker Guide.

Theme (Pass/Fail)

Does it align with the theme?

Impact (20%)

Does it solve a real problem?

Execution (40%)

Is it functional & polished?

Creativity (20%)

Is it innovative?

Presentation (20%)

Was the demo clear & engaging?

Thanks to our judges!

Senior Product Manager
@ Data Enablement

Schedule Overview

You can view it in your Hacker Guide!

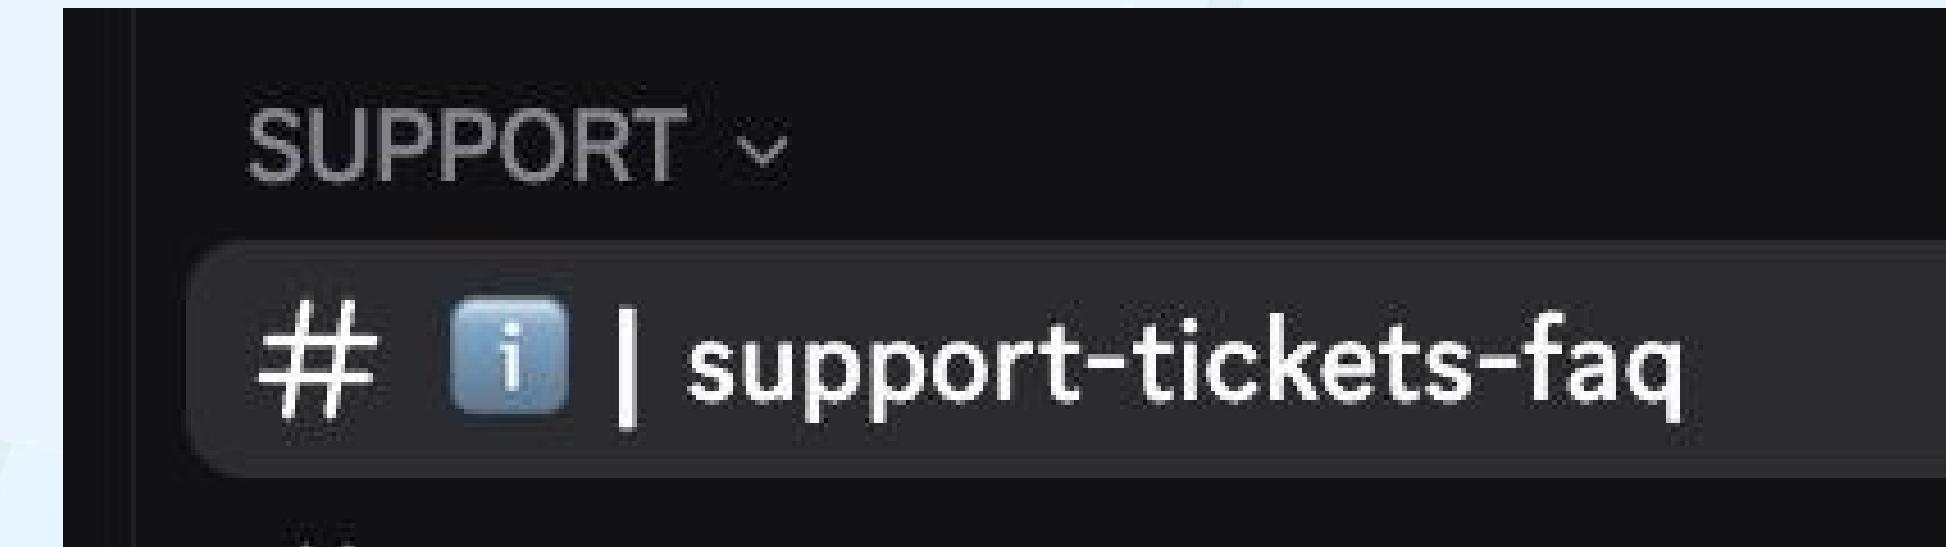

[View Schedule](#)

Need help?

Make a Support Ticket if you need any assistance (in Support Category).

[Organizer] George Yesterday at 5:35 AM

Support Ticket FAQ

If you need help during the event, our ticket system is the fastest way to reach organizers or mentors.

How to Open a Ticket

Go to the SUPPORT category, and create a # general , # mentor , or # incident ticket based on your needs. Click the *Create Ticket* button. A private channel will be created where you can chat directly with the support team.

When to Open a Ticket

Use a ticket for:

- Technical issues (login, submissions, environment setup)
- On-site problems (equipment, Wi-Fi, workspace)
- Personal or safety concerns
- Questions you don't want public
- Anything time-sensitive during the hackathon

What NOT to Use Tickets For

- General chat
- Project collaboration
- Asking teammates to join
- Conversation that belongs in the public channels

After You're Done

- Let staff know when your issue is resolved
- The staff member will close the ticket for you

Reminder

All tickets are private between you and the organizing team. Please include as much detail as possible so we can help quickly! (edited)

Stay Updated!

Remember to join our **Discord** + **Devpost**

Important info can be found in our discord channels, if you are having problems joining the discord, ask an organizer!

Thank you and
Good luck on your Projects!
